The purpose of the Board of Management is to serve the residents of the Rio Grande Water Conservation District in an efficient and effective manner.

Two purposes describe the Board:

1. To provide services to ensure sufficient water supply.
2. To provide funds for the improvement of the District.

The Board of Management also provides a valuable service to the public by ensuring that water is used in an efficient and environmentally friendly manner.

The Board meets on the first Monday of each month at 7:00 PM at the District Office located at 12345 Water Street. The public is welcome to attend these meetings.

The meetings are open to the public and are conducted in accordance with the laws of the State of Colorado.

The Board of Management is made up of seven members who are elected by the residents of the District.

The Board's responsibilities include:

- Overseeing the financial affairs of the District
- Approving the budget and financial reports
- Approving the Consolidated Rate Schedule
- Appointing members to committees and task forces
- Approving the appointment of officers and other employees

The Board's meetings are recorded and minutes are kept.

The minutes are available for public review at the District Office.

The Board of Management is committed to providing the best possible service to the residents of the District.

Discussion of Preliminary Variances

A motion was made to accept the agenda as written. The motion was seconded and approved.

Approval of Agenda

The Board passed the agenda for the meeting.

Introduction of Attendees

President Nelson introduced the attendees.

Consent Agenda

The Board approved the consent agenda.

New Business

The Board considered the following new business items:

- Approval of the 2022 Budget
- Update on the District's water conservation efforts
- Approval of the 2023 Rate Schedule

The Board unanimously approved all items on the consent agenda.

Adjournment

The meeting adjourned at 8:00 PM.
The business is possible and still recover the agency. Have to accomplish what is required. We need to have money to start next year, will have to keep as many people in the office as possible to get our clients. Approximately 60 full-time plus we do have some extra money in the first year. We need to plan money in the bank and pay expenses. Agree with flipping. It is not a decision to set the rate at $5/day and all voted for it. We want to have money in the bank and pay expenses.

When Michael came to be more moderate or mid-grade of the fee for the first year until we invest in $5 million in fees.

When Michael asked him to go and present to the board the members to start discussion:

cause the subscription to lose $5 million in fees.

When asked to focus on the balance

since we need to combine the fee and most of the figures with no significant amount of planning and no planning for union fees. This scenario could

When also looked at the effect of getting the fee at $5/day and most of the figures with no significant amount of planning and no planning for union fees. This scenario could

When also received his study on the change in the fee for the subscription.

We can't invest in $5 million. If we only allow half of the $10,000 above you would be around $250 for the

The seasonality of the forecast for the quarter is still very strong and that concerns me.

I am still hopeful. We have no hope for the quarter. We have a 6% growth rate. It's not bad.

We have no plan to increase our earnings per share. We will continue to grow at a steady rate.

We will continue to invest in our operations to improve efficiency. We will increase our sales by 5% this year. We will continue to expand our operations.

We are optimistic about the future of the company. We will continue to invest in new technologies and products.

We will continue to focus on enhancing our customer service to improve satisfaction.

Thank you for your attention. We are committed to delivering value to our shareholders.
If you are not sure if someone has money and supposedly set it in escrow.

Suppose you are entering into an agreement to sell some property and you want to make sure the person on the other side is paying the proper amount of money.

You might say something like, "I want to make sure that the money is being held in escrow so that I am not losing out on the deal."
money that we can start investing if we can get water. If we can get the right water, we can create a good product. If we can get the right people to invest in our business, we can make the money that can fund the research and development of the product. The research that we have conducted, the business model we have developed, and the team we have assembled are all the ingredients for success. The key is to find the right partners who can help us bring this product to market. The market is ready, and the demand is there. We need to find the right people who can help us bring this product to market.

In conclusion, I believe that we have the right team and the right business model to make this product a success. With the right partners, we can bring this product to market and make a lot of money. The market is ready, and the demand is there. We need to find the right people who can help us bring this product to market.
