

## EXHIBIT D

# PETITION FOR THE ESTABLISHMENT OF SPECIAL IMPROVEMENT DISTRICT NO. 4 OF THE RIO GRANDE WATER CONSERVATION DISTRICT

(Individual Petitions to Establish Subdistrict)

**PETITION**  
**TO FORM SPECIAL IMPROVEMENT DISTRICT NO. 4**  
**OF THE RIO GRANDE WATER CONSERVATION DISTRICT**

---

We the undersigned by our signatures affixed to this petition do hereby affirm and attest that:

1. (We/I) own an interest in real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System, or (we/I) represent owners of real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System and (we/I) have the proper legal authority to sign this Petition on the owner's behalf.

2. (We/I) support the formation of Special Improvement District No. 4 and request that the District Court form the Special Improvement District pursuant to the attached Petition and general description of the *conceptual* Plan of Water Management to govern the Special Improvement District.

3. By (my/our) signature hereon (we/I) request that the Rio Grande Water Conservation District petition the District Court to form Special Improvement District No. 4 and include this property within Special Improvement District No. 4.

---

**Special Improvement District Purpose**

The purpose of this Subdistrict is to provide a community-oriented water management alternative to individual augmentation plans or state-imposed regulations limiting the use of wells in Water Division No. 3. That is, to provide a mechanism through which a group of well users in the San Luis Creek Response Area can work collaboratively to develop and implement a system of self-regulation using economic-based incentives and other management tools that promote responsible groundwater management and that remedies the injury to senior surface water rights that result from groundwater use from Subdistrict wells.

Participation in the Subdistrict is strictly voluntary. By voluntarily petitioning land into the Subdistrict, (we/I) explicitly authorize, and agree to abide by, any groundwater allocation or limits imposed by the Board of Managers, either by individual Subdistrict well or Farm Unit. (We/I) further understand that the Board of Managers may impose rules, economic disincentives or penalties, up to and including exclusion of wells from the Subdistrict's Annual Replacement Plan, deemed reasonably necessary to further the goals of the Plan or to comply with Colorado law. These covenants run with the land and bind both current and future owners of the property described below.

We/I understand that all Subdistrict members will be required to contribute financially to the Subdistrict in order generate sufficient revenue to meet the goals of the Subdistrict. It is anticipated that the Subdistrict will be financed primarily through service and user fees, but the Subdistrict may elect to utilize any combination of the financing methods set forth in C.R.S. § 37-48-123(2)(e) (2016). Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. All methods of financing set forth in 37-48-123(2)(e) or in any subsequent amendments thereof are authorized by the signatures on this petition without further election, pending approval of the Subdistrict Board of Managers.

Once land is petitioned into the Subdistrict and the Subdistrict is duly formed by Court order, the land will remain in the Subdistrict for as long as the Subdistrict is in existence. The Subdistrict will exist in perpetuity unless dissolved by appropriate legal action.

The legal description of the property that is the subject of this petition is described below. Wells within the proposed Subdistrict that are located on or having legal authority to apply groundwater to this property are listed in Table A.

Farm Plan # 600160

Petition No 395723400015

By (our/my) signature hereon, (we/I) attest to (our/my) ownership of the wells and described land (or to our/my legal authority to represent an entity that has ownership of the described land), (I/we) indicate our understanding of the foregoing intentions and purposes of the Subdistrict, and request that the same be formed pursuant to applicable statutes by the District Court.

**PETITION  
TO FORM SPECIAL IMPROVEMENT DISTRICT NO. 4  
OF THE RIO GRANDE WATER CONSERVATION DISTRICT**

We the undersigned by our signatures affixed to this petition do hereby affirm and attest that:

1. (We/I) own an interest in real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System, or (we/I) represent owners of real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System and (we/I) have the proper legal authority to sign this Petition on the owner's behalf.
2. (We/I) support the formation of Special Improvement District No. 4 and request that the District Court form the Special Improvement District pursuant to the attached Petition and general description of the *conceptual* Plan of Water Management to govern the Special Improvement District.
3. By (my/our) signature hereon (we/I) request that the Rio Grande Water Conservation District petition the District Court to form Special Improvement District No. 4 and include this property within Special Improvement District No. 4.

---

**Special Improvement District Purpose**

The purpose of this Subdistrict is to provide a community-oriented water management alternative to individual augmentation plans or state-imposed regulations limiting the use of wells in Water Division No. 3. That is, to provide a mechanism through which a group of well users in the San Luis Creek Response Area can work collaboratively to develop and implement a system of self-regulation using economic-based incentives and other management tools that promote responsible groundwater management and that remedies the injury to senior surface water rights that result from groundwater use from Subdistrict wells.

**Participation in the Subdistrict is strictly voluntary. By voluntarily petitioning land into the Subdistrict, (we/I) explicitly authorize, and agree to abide by, any groundwater allocation or limits imposed by the Board of Managers, either by individual Subdistrict well or Farm Unit. (We/I) further understand that the Board of Managers may impose rules, economic disincentives or penalties, up to and including exclusion of wells from the Subdistrict's Annual Replacement Plan, deemed reasonably necessary to further the goals of the Plan or to comply with Colorado law. These covenants run with the land and bind both current and future owners of the property described below.**

We/I understand that all Subdistrict members will be required to contribute financially to the Subdistrict in order generate sufficient revenue to meet the goals of the Subdistrict. It is anticipated that the Subdistrict will be financed primarily through service and user fees, but the Subdistrict may elect to utilize any combination of the financing methods set forth in C.R.S. § 37-48-123(2)(e) (2016). Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. All methods of financing set forth in 37-48-123(2)(e) or in any subsequent amendments thereof are authorized by the signatures on this petition without further election, pending approval of the Subdistrict Board of Managers.

Once land is petitioned into the Subdistrict and the Subdistrict is duly formed by Court order, the land will remain in the Subdistrict for as long as the Subdistrict is in existence. The Subdistrict will exist in perpetuity unless dissolved by appropriate legal action.

The legal description of the property that is the subject of this petition is described below. Wells within the proposed Subdistrict that are located on or having legal authority to apply groundwater to this property are listed in Table A.

**PETITION**  
**TO FORM SPECIAL IMPROVEMENT DISTRICT NO. 4**  
**OF THE RIO GRANDE WATER CONSERVATION DISTRICT**

We the undersigned by our signatures affixed to this petition do hereby affirm and attest that:

1. (We/I) own an interest in real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System, or (we/I) represent owners of real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System and (we/I) have the proper legal authority to sign this Petition on the owner's behalf.
2. (We/I) support the formation of Special Improvement District No. 4 and request that the District Court form the Special Improvement District pursuant to the attached Petition and general description of the *conceptual* Plan of Water Management to govern the Special Improvement District.
3. By (my/our) signature hereon (we/I) request that the Rio Grande Water Conservation District petition the District Court to form Special Improvement District No. 4 and include this property within Special Improvement District No. 4.

---

**Special Improvement District Purpose**

The purpose of this Subdistrict is to provide a community-oriented water management alternative to individual augmentation plans or state-imposed regulations limiting the use of wells in Water Division No. 3. That is, to provide a mechanism through which a group of well users in the San Luis Creek Response Area can work collaboratively to develop and implement a system of self-regulation using economic-based incentives and other management tools that promote responsible groundwater management and that remedies the injury to senior surface water rights that result from groundwater use from Subdistrict wells.

**Participation in the Subdistrict is strictly voluntary. By voluntarily petitioning land into the Subdistrict, (we/I) explicitly authorize, and agree to abide by, any groundwater allocation or limits imposed by the Board of Managers, either by individual Subdistrict well or Farm Unit. (We/I) further understand that the Board of Managers may impose rules, economic disincentives or penalties, up to and including exclusion of wells from the Subdistrict's Annual Replacement Plan, deemed reasonably necessary to further the goals of the Plan or to comply with Colorado law. These covenants run with the land and bind both current and future owners of the property described below.**

We/I understand that all Subdistrict members will be required to contribute financially to the Subdistrict in order generate sufficient revenue to meet the goals of the Subdistrict. It is anticipated that the Subdistrict will be financed primarily through service and user fees, but the Subdistrict may elect to utilize any combination of the financing methods set forth in C.R.S. § 37-48-123(2)(e) (2016). Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. All methods of financing set forth in 37-48-123(2)(e) or in any subsequent amendments thereof are authorized by the signatures on this petition without further election, pending approval of the Subdistrict Board of Managers.

Once land is petitioned into the Subdistrict and the Subdistrict is duly formed by Court order, the land will remain in the Subdistrict for as long as the Subdistrict is in existence. The Subdistrict will exist in perpetuity unless dissolved by appropriate legal action.

The legal description of the property that is the subject of this petition is described below. Wells within the proposed Subdistrict that are located on or having legal authority to apply groundwater to this property are listed in Table A.

(We/I) own an interest in real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System, or (we/I) represent owners of real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System and (we/I) have the proper legal authority to sign this Petition on the owner's behalf.
  
  2. (We/I) support the formation of Special Improvement District No. 4 and request that the District Court form the Special Improvement District pursuant to the attached Petition and general description of the *conceptual* Plan of Water Management to govern the Special Improvement District.
  
  3. By (my/our) signature hereon (we/I) request that the Rio Grande Water Conservation District petition the District Court to form Special Improvement District No. 4 and include this property within Special Improvement District No. 4.
- 

**Special Improvement District Purpose**

The purpose of this Subdistrict is to provide a community-oriented water management alternative to individual augmentation plans or state-imposed regulations limiting the use of wells in Water Division No. 3. That is, to provide a mechanism through which a group of well users in the San Luis Creek Response Area can work collaboratively to develop and implement a system of self-regulation using economic-based incentives and other management tools that promote responsible groundwater management and that remedies the injury to senior surface water rights that result from groundwater use from Subdistrict wells.

**Participation in the Subdistrict is strictly voluntary. By voluntarily petitioning land into the Subdistrict, (we/I) explicitly authorize, and agree to abide by, any groundwater allocation or limits imposed by the Board of Managers, either by individual Subdistrict well or Farm Unit. (We/I) further understand that the Board of Managers may impose rules, economic disincentives or penalties, up to and including exclusion of wells from the Subdistrict's Annual Replacement Plan, deemed reasonably necessary to further the goals of the Plan or to comply with Colorado law. These covenants run with the land and bind both current and future owners of the property described below.**

We/I understand that all Subdistrict members will be required to contribute financially to the Subdistrict in order generate sufficient revenue to meet the goals of the Subdistrict. It is anticipated that the Subdistrict will be financed primarily through service and user fees, but the Subdistrict may elect to utilize any combination of the financing methods set forth in C.R.S. § 37-48-123(2)(e) (2016). Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. All methods of financing set forth in 37-48-123(2)(e) or in any subsequent amendments thereof are authorized by the signatures on this petition without further election, pending approval of the Subdistrict Board of Managers.

Once land is petitioned into the Subdistrict and the Subdistrict is duly formed by Court order, the land will remain in the Subdistrict for as long as the Subdistrict is in existence. The Subdistrict will exist in perpetuity unless dissolved by appropriate legal action.

The legal description of the property that is the subject of this petition is described below. Wells within the proposed Subdistrict that are located on or having legal authority to apply groundwater to this property are listed in Table A.

Farm Plan # 600130

Petition No 407535400020

By (our/my) signature hereon, (we/I) attest to (our/my) ownership of the wells and described land (or to our/my legal authority to represent an entity that has ownership of the described land), (I/we) indicate our understanding of the foregoing intentions and purposes of the Subdistrict, and request that the same be formed pursuant to applicable statutes by the District Court.

**PETITION  
TO FORM SPECIAL IMPROVEMENT DISTRICT NO. 4  
OF THE RIO GRANDE WATER CONSERVATION DISTRICT**

We the undersigned by our signatures affixed to this petition do hereby affirm and attest that:

1. (We/I) own an interest in real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System, or (we/I) represent owners of real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System and (we/I) have the proper legal authority to sign this Petition on the owner's behalf.
2. (We/I) support the formation of Special Improvement District No. 4 and request that the District Court form the Special Improvement District pursuant to the attached Petition and general description of the *conceptual* Plan of Water Management to govern the Special Improvement District.
3. By (my/our) signature hereon (we/I) request that the Rio Grande Water Conservation District petition the District Court to form Special Improvement District No. 4 and include this property within Special Improvement District No. 4.

**Special Improvement District Purpose**

The purpose of this Subdistrict is to provide a community-oriented water management alternative to individual augmentation plans or state-imposed regulations limiting the use of wells in Water Division No. 3. That is, to provide a mechanism through which a group of well users in the San Luis Creek Response Area can work collaboratively to develop and implement a system of self-regulation using economic-based incentives and other management tools that promote responsible groundwater management and that remedies the injury to senior surface water rights that result from groundwater use from Subdistrict wells.

**Participation in the Subdistrict is strictly voluntary. By voluntarily petitioning land into the Subdistrict, (we/I) explicitly authorize, and agree to abide by, any groundwater allocation or limits imposed by the Board of Managers, either by individual Subdistrict well or Farm Unit. (We/I) further understand that the Board of Managers may impose rules, economic disincentives or penalties, up to and including exclusion of wells from the Subdistrict's Annual Replacement Plan, deemed reasonably necessary to further the goals of the Plan or to comply with Colorado law. These covenants run with the land and bind both current and future owners of the property described below.**

We/I understand that all Subdistrict members will be required to contribute financially to the Subdistrict in order generate sufficient revenue to meet the goals of the Subdistrict. It is anticipated that the Subdistrict will be financed primarily through service and user fees, but the Subdistrict may elect to utilize any combination of the financing methods set forth in C.R.S. § 37-48-123(2)(e) (2016). Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. All methods of financing set forth in 37-48-123(2)(e) or in any subsequent amendments thereof are authorized by the signatures on this petition without further election, pending approval of the Subdistrict Board of Managers.

Once land is petitioned into the Subdistrict and the Subdistrict is duly formed by Court order, the land will remain in the Subdistrict for as long as the Subdistrict is in existence. The Subdistrict will exist in perpetuity unless dissolved by appropriate legal action.

The legal description of the property that is the subject of this petition is described below. Wells within the proposed Subdistrict that are located on or having legal authority to apply groundwater to this property are listed in Table A.

**PETITION  
TO FORM SPECIAL IMPROVEMENT DISTRICT NO. 4  
OF THE RIO GRANDE WATER CONSERVATION DISTRICT**

---

We the undersigned by our signatures affixed to this petition do hereby affirm and attest that:

1. (We/I) own an interest in real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System, or (we/I) represent owners of real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System and (we/I) have the proper legal authority to sign this Petition on the owner's behalf.
  
  2. (We/I) support the formation of Special Improvement District No. 4 and request that the District Court form the Special Improvement District pursuant to the attached Petition and general description of the *conceptual* Plan of Water Management to govern the Special Improvement District.
  
  3. By (my/our) signature hereon (we/I) request that the Rio Grande Water Conservation District petition the District Court to form Special Improvement District No. 4 and include this property within Special Improvement District No. 4.
- 

**Special Improvement District Purpose**

The purpose of this Subdistrict is to provide a community-oriented water management alternative to individual augmentation plans or state-imposed regulations limiting the use of wells in Water Division No. 3. That is, to provide a mechanism through which a group of well users in the San Luis Creek Response Area can work collaboratively to develop and implement a system of self-regulation using economic-based incentives and other management tools that promote responsible groundwater management and that remedies the injury to senior surface water rights that result from groundwater use from Subdistrict wells.

**Participation in the Subdistrict is strictly voluntary. By voluntarily petitioning land into the Subdistrict, (we/I) explicitly authorize, and agree to abide by, any groundwater allocation or limits imposed by the Board of Managers, either by individual Subdistrict well or Farm Unit. (We/I) further understand that the Board of Managers may impose rules, economic disincentives or penalties, up to and including exclusion of wells from the Subdistrict's Annual Replacement Plan, deemed reasonably necessary to further the goals of the Plan or to comply with Colorado law. These covenants run with the land and bind both current and future owners of the property described below.**

We/I understand that all Subdistrict members will be required to contribute financially to the Subdistrict in order generate sufficient revenue to meet the goals of the Subdistrict. It is anticipated that the Subdistrict will be financed primarily through service and user fees, but the Subdistrict may elect to utilize any combination of the financing methods set forth in C.R.S. § 37-48-123(2)(e) (2016). Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. All methods of financing set forth in 37-48-123(2)(e) or in any subsequent amendments thereof are authorized by the signatures on this petition without further election, pending approval of the Subdistrict Board of Managers.

Once land is petitioned into the Subdistrict and the Subdistrict is duly formed by Court order, the land will remain in the Subdistrict for as long as the Subdistrict is in existence. The Subdistrict will exist in perpetuity unless dissolved by appropriate legal action.

The legal description of the property that is the subject of this petition is described below. Wells within the proposed Subdistrict that are located on or having legal authority to apply groundwater to this property are listed in Table A.

Farm Plan # 600420

Petition No 422111300110

By (our/my) signature hereon, (we/I) attest to (our/my) ownership of the wells and described land (or to our/my legal authority to represent an entity that has ownership of the described land), (I/we) indicate our understanding of the foregoing intentions and purposes of the Subdistrict, and request that the same be formed pursuant to applicable statutes by the District Court.

**PETITION  
TO FORM SPECIAL IMPROVEMENT DISTRICT NO. 4  
OF THE RIO GRANDE WATER CONSERVATION DISTRICT**

---

We the undersigned by our signatures affixed to this petition do hereby affirm and attest that:

1. (We/I) own an interest in real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System, or (we/I) represent owners of real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System and (we/I) have the proper legal authority to sign this Petition on the owner's behalf.
2. (We/I) support the formation of Special Improvement District No. 4 and request that the District Court form the Special Improvement District pursuant to the attached Petition and general description of the *conceptual* Plan of Water Management to govern the Special Improvement District.
3. By (my/our) signature hereon (we/I) request that the Rio Grande Water Conservation District petition the District Court to form Special Improvement District No. 4 and include this property within Special Improvement District No. 4.

---

**Special Improvement District Purpose**

The purpose of this Subdistrict is to provide a community-oriented water management alternative to individual augmentation plans or state-imposed regulations limiting the use of wells in Water Division No. 3. That is, to provide a mechanism through which a group of well users in the San Luis Creek Response Area can work collaboratively to develop and implement a system of self-regulation using economic-based incentives and other management tools that promote responsible groundwater management and that remedies the injury to senior surface water rights that result from groundwater use from Subdistrict wells.

**Participation in the Subdistrict is strictly voluntary. By voluntarily petitioning land into the Subdistrict, (we/I) explicitly authorize, and agree to abide by, any groundwater allocation or limits imposed by the Board of Managers, either by individual Subdistrict well or Farm Unit. (We/I) further understand that the Board of Managers may impose rules, economic disincentives or penalties, up to and including exclusion of wells from the Subdistrict's Annual Replacement Plan, deemed reasonably necessary to further the goals of the Plan or to comply with Colorado law. These covenants run with the land and bind both current and future owners of the property described below.**

We/I understand that all Subdistrict members will be required to contribute financially to the Subdistrict in order generate sufficient revenue to meet the goals of the Subdistrict. It is anticipated that the Subdistrict will be financed primarily through service and user fees, but the Subdistrict may elect to utilize any combination of the financing methods set forth in C.R.S. § 37-48-123(2)(e) (2016). Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. All methods of financing set forth in 37-48-123(2)(e) or in any subsequent amendments thereof are authorized by the signatures on this petition without further election, pending approval of the Subdistrict Board of Managers.

Once land is petitioned into the Subdistrict and the Subdistrict is duly formed by Court order, the land will remain in the Subdistrict for as long as the Subdistrict is in existence. The Subdistrict will exist in perpetuity unless dissolved by appropriate legal action.

The legal description of the property that is the subject of this petition is described below. Wells within the proposed Subdistrict that are located on or having legal authority to apply groundwater to this property are listed in Table A.

Farm Plan # 600360

Petition No 422324100044

By (our/my) signature hereon, (we/I) attest to (our/my) ownership of the wells and described land (or to our/my legal authority to represent an entity that has ownership of the described land), (I/we) indicate our understanding of the foregoing intentions and purposes of the Subdistrict, and request that the same be formed pursuant to applicable statutes by the District Court.

(We/I) own an interest in real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System, or (we/I) represent owners of real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System and (we/I) have the proper legal authority to sign this Petition on the owner's behalf.
  2. (We/I) support the formation of Special Improvement District No. 4 and request that the District Court form the Special Improvement District pursuant to the attached Petition and general description of the *conceptual* Plan of Water Management to govern the Special Improvement District.
  3. By (my/our) signature hereon (we/I) request that the Rio Grande Water Conservation District petition the District Court to form Special Improvement District No. 4 and include this property within Special Improvement District No. 4.
- 

**Special Improvement District Purpose**

The purpose of this Subdistrict is to provide a community-oriented water management alternative to individual augmentation plans or state-imposed regulations limiting the use of wells in Water Division No. 3. That is, to provide a mechanism through which a group of well users in the San Luis Creek Response Area can work collaboratively to develop and implement a system of self-regulation using economic-based incentives and other management tools that promote responsible groundwater management and that remedies the injury to senior surface water rights that result from groundwater use from Subdistrict wells.

**Participation in the Subdistrict is strictly voluntary. By voluntarily petitioning land into the Subdistrict, (we/I) explicitly authorize, and agree to abide by, any groundwater allocation or limits imposed by the Board of Managers, either by individual Subdistrict well or Farm Unit. (We/I) further understand that the Board of Managers may impose rules, economic disincentives or penalties, up to and including exclusion of wells from the Subdistrict's Annual Replacement Plan, deemed reasonably necessary to further the goals of the Plan or to comply with Colorado law. These covenants run with the land and bind both current and future owners of the property described below.**

We/I understand that all Subdistrict members will be required to contribute financially to the Subdistrict in order generate sufficient revenue to meet the goals of the Subdistrict. It is anticipated that the Subdistrict will be financed primarily through service and user fees, but the Subdistrict may elect to utilize any combination of the financing methods set forth in C.R.S. § 37-48-123(2)(e) (2016). Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. All methods of financing set forth in 37-48-123(2)(e) or in any subsequent amendments thereof are authorized by the signatures on this petition without further election, pending approval of the Subdistrict Board of Managers.

Once land is petitioned into the Subdistrict and the Subdistrict is duly formed by Court order, the land will remain in the Subdistrict for as long as the Subdistrict is in existence. The Subdistrict will exist in perpetuity unless dissolved by appropriate legal action.

The legal description of the property that is the subject of this petition is described below. Wells within the proposed Subdistrict that are located on or having legal authority to apply groundwater to this property are listed in Table A.

Farm Plan # 600210

Petition No 433936100099

By (our/my) signature hereon, (we/I) attest to (our/my) ownership of the wells and described land (or to our/my legal authority to represent an entity that has ownership of the described land), (I/we) indicate our understanding of the foregoing intentions and purposes of the Subdistrict, and request that the same be formed pursuant to applicable statutes by the District Court.

printed 11/3/2016

Petition No. 434117300049 was signed by Mr. George Homm as trustee for the Gail Bowman Revocable Trust. On the signature page Mr. Homm returned, his signature is clear but the rest of the petition is very light. When scanned for inclusion in this exhibit, the Petition No. and his signature are readable but the legal description of the land is not. This petition also required the signature of Mr. Ronald Bowan. Mr. Bowman's signature page scans clearly and does identify the land that is included by this Petition and therefore should be used as a reference for Mr. Homm's signature page.

**PETITION**  
**TO FORM SPECIAL IMPROVEMENT DISTRICT NO. 4**  
**OF THE RIO GRANDE WATER CONSERVATION DISTRICT**

---

We the undersigned by our signatures affixed to this petition do hereby affirm and attest that:

1. (We/I) own an interest in real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System, or (we/I) represent owners of real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System and (we/I) have the proper legal authority to sign this Petition on the owner's behalf.
2. (We/I) support the formation of Special Improvement District No. 4 and request that the District Court form the Special Improvement District pursuant to the attached Petition and general description of the *conceptual* Plan of Water Management to govern the Special Improvement District.
3. By (my/our) signature hereon (we/I) request that the Rio Grande Water Conservation District petition the District Court to form Special Improvement District No. 4 and include this property within Special Improvement District No. 4.

---

**Special Improvement District Purpose**

The purpose of this Subdistrict is to provide a community-oriented water management alternative to individual augmentation plans or state-imposed regulations limiting the use of wells in Water Division No. 3. That is, to provide a mechanism through which a group of well users in the San Luis Creek Response Area can work collaboratively to develop and implement a system of self-regulation using economic-based incentives and other management tools that promote responsible groundwater management and that remedies the injury to senior surface water rights that result from groundwater use from Subdistrict wells.

**Participation in the Subdistrict is strictly voluntary. By voluntarily petitioning land into the Subdistrict, (we/I) explicitly authorize, and agree to abide by, any groundwater allocation or limits imposed by the Board of Managers, either by individual Subdistrict well or Farm Unit. (We/I) further understand that the Board of Managers may impose rules, economic disincentives or penalties, up to and including exclusion of wells from the Subdistrict's Annual Replacement Plan, deemed reasonably necessary to further the goals of the Plan or to comply with Colorado law. These covenants run with the land and bind both current and future owners of the property described below.**

We/I understand that all Subdistrict members will be required to contribute financially to the Subdistrict in order generate sufficient revenue to meet the goals of the Subdistrict. It is anticipated that the Subdistrict will be financed primarily through service and user fees, but the Subdistrict may elect to utilize any combination of the financing methods set forth in C.R.S. § 37-48-123(2)(e) (2016). Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. All methods of financing set forth in 37-48-123(2)(e) or in any subsequent amendments thereof are authorized by the signatures on this petition without further election, pending approval of the Subdistrict Board of Managers.

Once land is petitioned into the Subdistrict and the Subdistrict is duly formed by Court order, the land will remain in the Subdistrict for as long as the Subdistrict is in existence. The Subdistrict will exist in perpetuity unless dissolved by appropriate legal action.

The legal description of the property that is the subject of this petition is described below. Wells within the proposed Subdistrict that are located on or having legal authority to apply groundwater to this property are listed in Table A.

Farm Plan # 600230

Petition No 43417300049

By (our/my) signature hereon, (we/I) attest to (our/my) ownership of the wells and described land (or to our/my legal authority to represent an entity that has ownership of the described land), (I/we) indicate our understanding of the foregoing intentions and purposes of the Subdistrict, and request that the same be formed pursuant to applicable statutes by the District Court.

Petition No. 434117400048 was signed by Mr. George Homm as trustee for the Gail Bowman Revocable Trust. On the signature page Mr. Homm returned, his signature is clear but the rest of the petition is very light. When scanned for inclusion in this exhibit, the Petition No. and his signature are readable but the legal description of the land is not. This petition also required the signature of Mr. Ronald Bowan. Mr. Bowman's signature page scans clearly and does identify the land that is included by this Petition and therefore should be used as a reference for Mr. Homm's signature page.

**PETITION  
TO FORM SPECIAL IMPROVEMENT DISTRICT NO. 4  
OF THE RIO GRANDE WATER CONSERVATION DISTRICT**

We the undersigned by our signatures affixed to this petition do hereby affirm and attest that:

1. (We/I) own an interest in real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System, or (we/I) represent owners of real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System and (we/I) have the proper legal authority to sign this Petition on the owner's behalf.
  
2. (We/I) support the formation of Special Improvement District No. 4 and request that the District Court form the Special Improvement District pursuant to the attached Petition and general description of the *conceptual* Plan of Water Management to govern the Special Improvement District.
  
3. By (my/our) signature hereon (we/I) request that the Rio Grande Water Conservation District petition the District Court to form Special Improvement District No. 4 and include this property within Special Improvement District No. 4.

**Special Improvement District Purpose**

The purpose of this Subdistrict is to provide a community-oriented water management alternative to individual augmentation plans or state-imposed regulations limiting the use of wells in Water Division No. 3. That is, to provide a mechanism through which a group of well users in the San Luis Creek Response Area can work collaboratively to develop and implement a system of self-regulation using economic-based incentives and other management tools that promote responsible groundwater management and that remedies the injury to senior surface water rights that result from groundwater use from Subdistrict wells.

**Participation in the Subdistrict is strictly voluntary. By voluntarily petitioning land into the Subdistrict, (we/I) explicitly authorize, and agree to abide by, any groundwater allocation or limits imposed by the Board of Managers, either by individual Subdistrict well or Farm Unit. (We/I) further understand that the Board of Managers may impose rules, economic disincentives or penalties, up to and including exclusion of wells from the Subdistrict's Annual Replacement Plan, deemed reasonably necessary to further the goals of the Plan or to comply with Colorado law. These covenants run with the land and bind both current and future owners of the property described below.**

We/I understand that all Subdistrict members will be required to contribute financially to the Subdistrict in order generate sufficient revenue to meet the goals of the Subdistrict. It is anticipated that the Subdistrict will be financed primarily through service and user fees, but the Subdistrict may elect to utilize any combination of the financing methods set forth in C.R.S. § 37-48-123(2)(e) (2016). Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. All methods of financing set forth in 37-48-123(2)(e) or in any subsequent amendments thereof are authorized by the signatures on this petition without further election, pending approval of the Subdistrict Board of Managers.

Once land is petitioned into the Subdistrict and the Subdistrict is duly formed by Court order, the land will remain in the Subdistrict for as long as the Subdistrict is in existence. The Subdistrict will exist in perpetuity unless dissolved by appropriate legal action.

The legal description of the property that is the subject of this petition is described below. Wells within the proposed Subdistrict that are located on or having legal authority to apply groundwater to this property are listed in Table A.

**PETITION  
TO FORM SPECIAL IMPROVEMENT DISTRICT NO. 4  
OF THE RIO GRANDE WATER CONSERVATION DISTRICT**

---

We the undersigned by our signatures affixed to this petition do hereby affirm and attest that:

1. (We/I) own an interest in real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System, or (we/I) represent owners of real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System and (we/I) have the proper legal authority to sign this Petition on the owner's behalf.
  2. (We/I) support the formation of Special Improvement District No. 4 and request that the District Court form the Special Improvement District pursuant to the attached Petition and general description of the *conceptual* Plan of Water Management to govern the Special Improvement District.
  3. By (my/our) signature hereon (we/I) request that the Rio Grande Water Conservation District petition the District Court to form Special Improvement District No. 4 and include this property within Special Improvement District No. 4.
- 

**Special Improvement District Purpose**

The purpose of this Subdistrict is to provide a community-oriented water management alternative to individual augmentation plans or state-imposed regulations limiting the use of wells in Water Division No. 3. That is, to provide a mechanism through which a group of well users in the San Luis Creek Response Area can work collaboratively to develop and implement a system of self-regulation using economic-based incentives and other management tools that promote responsible groundwater management and that remedies the injury to senior surface water rights that result from groundwater use from Subdistrict wells.

**Participation in the Subdistrict is strictly voluntary. By voluntarily petitioning land into the Subdistrict, (we/I) explicitly authorize, and agree to abide by, any groundwater allocation or limits imposed by the Board of Managers, either by individual Subdistrict well or Farm Unit. (We/I) further understand that the Board of Managers may impose rules, economic disincentives or penalties, up to and including exclusion of wells from the Subdistrict's Annual Replacement Plan, deemed reasonably necessary to further the goals of the Plan or to comply with Colorado law. These covenants run with the land and bind both current and future owners of the property described below.**

We/I understand that all Subdistrict members will be required to contribute financially to the Subdistrict in order generate sufficient revenue to meet the goals of the Subdistrict. It is anticipated that the Subdistrict will be financed primarily through service and user fees, but the Subdistrict may elect to utilize any combination of the financing methods set forth in C.R.S. § 37-48-123(2)(e) (2016). Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. All methods of financing set forth in 37-48-123(2)(e) or in any subsequent amendments thereof are authorized by the signatures on this petition without further election, pending approval of the Subdistrict Board of Managers.

Once land is petitioned into the Subdistrict and the Subdistrict is duly formed by Court order, the land will remain in the Subdistrict for as long as the Subdistrict is in existence. The Subdistrict will exist in perpetuity unless dissolved by appropriate legal action.

The legal description of the property that is the subject of this petition is described below. Wells within the proposed Subdistrict that are located on or having legal authority to apply groundwater to this property are listed in Table A.

Farm Plan # 600230

Petition No 434120100052

By (our/my) signature hereon, (we/I) attest to (our/my) ownership of the wells and described land (or to our/my legal authority to represent an entity that has ownership of the described land), (I/we) indicate our understanding of the foregoing intentions and purposes of the Subdistrict, and request that the same be formed pursuant to applicable statutes by the District Court.

**PETITION**  
**TO FORM SPECIAL IMPROVEMENT DISTRICT NO. 4**  
**OF THE RIO GRANDE WATER CONSERVATION DISTRICT**

---

We the undersigned by our signatures affixed to this petition do hereby affirm and attest that:

1. (We/I) own an interest in real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System, or (we/I) represent owners of real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System and (we/I) have the proper legal authority to sign this Petition on the owner's behalf.
  2. (We/I) support the formation of Special Improvement District No. 4 and request that the District Court form the Special Improvement District pursuant to the attached Petition and general description of the *conceptual* Plan of Water Management to govern the Special Improvement District.
  3. By (my/our) signature hereon (we/I) request that the Rio Grande Water Conservation District petition the District Court to form Special Improvement District No. 4 and include this property within Special Improvement District No. 4.
- 

**Special Improvement District Purpose**

The purpose of this Subdistrict is to provide a community-oriented water management alternative to individual augmentation plans or state-imposed regulations limiting the use of wells in Water Division No. 3. That is, to provide a mechanism through which a group of well users in the San Luis Creek Response Area can work collaboratively to develop and implement a system of self-regulation using economic-based incentives and other management tools that promote responsible groundwater management and that remedies the injury to senior surface water rights that result from groundwater use from Subdistrict wells.

**Participation in the Subdistrict is strictly voluntary. By voluntarily petitioning land into the Subdistrict, (we/I) explicitly authorize, and agree to abide by, any groundwater allocation or limits imposed by the Board of Managers, either by individual Subdistrict well or Farm Unit. (We/I) further understand that the Board of Managers may impose rules, economic disincentives or penalties, up to and including exclusion of wells from the Subdistrict's Annual Replacement Plan, deemed reasonably necessary to further the goals of the Plan or to comply with Colorado law. These covenants run with the land and bind both current and future owners of the property described below.**

We/I understand that all Subdistrict members will be required to contribute financially to the Subdistrict in order generate sufficient revenue to meet the goals of the Subdistrict. It is anticipated that the Subdistrict will be financed primarily through service and user fees, but the Subdistrict may elect to utilize any combination of the financing methods set forth in C.R.S. § 37-48-123(2)(e) (2016). Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. All methods of financing set forth in 37-48-123(2)(e) or in any subsequent amendments thereof are authorized by the signatures on this petition without further election, pending approval of the Subdistrict Board of Managers.

Once land is petitioned into the Subdistrict and the Subdistrict is duly formed by Court order, the land will remain in the Subdistrict for as long as the Subdistrict is in existence. The Subdistrict will exist in perpetuity unless dissolved by appropriate legal action.

The legal description of the property that is the subject of this petition is described below. Wells within the proposed Subdistrict that are located on or having legal authority to apply groundwater to this property are listed in Table A.

These covenants run with the land and bind both current and future owners of the property described below.**

We/I understand that all Subdistrict members will be required to contribute financially to the Subdistrict in order generate sufficient revenue to meet the goals of the Subdistrict. It is anticipated that the Subdistrict will be financed primarily through service and user fees, but the Subdistrict may elect to utilize any combination of the financing methods set forth in C.R.S. § 37-48-123(2)(e) (2016). Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. All methods of financing set forth in 37-48-123(2)(e) or in any subsequent amendments thereof are authorized by the signatures on this petition without further election, pending approval of the Subdistrict Board of Managers.

Once land is petitioned into the Subdistrict and the Subdistrict is duly formed by Court order, the land will remain in the Subdistrict for as long as the Subdistrict is in existence. The Subdistrict will exist in perpetuity unless dissolved by appropriate legal action.

The legal description of the property that is the subject of this petition is described below. Wells within the proposed Subdistrict that are located on or having legal authority to apply groundwater to this property are listed in Table A.

Witness my hand and the seal of the County of ... this 22nd day of February, 2017.

Petition No. 434120300054 was signed by Mr. George Homm as trustee for the Gail Bowman Revocable Trust. On the signature page Mr. Homm returned, his signature is clear but the rest of the petition is very light. When scanned for inclusion in this exhibit, the Petition No. and his signature are readable but the legal description of the land is not. This petition also required the signature of Mr. Ronald Bowan. Mr. Bowman's signature page scans clearly and does identify the land that is included by this Petition and therefore should be used as a reference for Mr. Homm's signature page.

**PETITION**  
**TO FORM SPECIAL IMPROVEMENT DISTRICT NO. 4**  
**OF THE RIO GRANDE WATER CONSERVATION DISTRICT**

---

We the undersigned by our signatures affixed to this petition do hereby affirm and attest that:

1. (We/I) own an interest in real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System, or (we/I) represent owners of real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System and (we/I) have the proper legal authority to sign this Petition on the owner's behalf.
  2. (We/I) support the formation of Special Improvement District No. 4 and request that the District Court form the Special Improvement District pursuant to the attached Petition and general description of the *conceptual* Plan of Water Management to govern the Special Improvement District.
  3. By (my/our) signature hereon (we/I) request that the Rio Grande Water Conservation District petition the District Court to form Special Improvement District No. 4 and include this property within Special Improvement District No. 4.
- 

**Special Improvement District Purpose**

The purpose of this Subdistrict is to provide a community-oriented water management alternative to individual augmentation plans or state-imposed regulations limiting the use of wells in Water Division No. 3. That is, to provide a mechanism through which a group of well users in the San Luis Creek Response Area can work collaboratively to develop and implement a system of self-regulation using economic-based incentives and other management tools that promote responsible groundwater management and that remedies the injury to senior surface water rights that result from groundwater use from Subdistrict wells.

**Participation in the Subdistrict is strictly voluntary. By voluntarily petitioning land into the Subdistrict, (we/I) explicitly authorize, and agree to abide by, any groundwater allocation or limits imposed by the Board of Managers, either by individual Subdistrict well or Farm Unit. (We/I) further understand that the Board of Managers may impose rules, economic disincentives or penalties, up to and including exclusion of wells from the Subdistrict's Annual Replacement Plan, deemed reasonably necessary to further the goals of the Plan or to comply with Colorado law. These covenants run with the land and bind both current and future owners of the property described below.**

We/I understand that all Subdistrict members will be required to contribute financially to the Subdistrict in order generate sufficient revenue to meet the goals of the Subdistrict. It is anticipated that the Subdistrict will be financed primarily through service and user fees, but the Subdistrict may elect to utilize any combination of the financing methods set forth in C.R.S. § 37-48-123(2)(e) (2016). Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. (We/I) further understand that the Board of Managers may impose rules, economic disincentives or penalties, up to and including exclusion of wells from the Subdistrict's Annual Replacement Plan, deemed reasonably necessary to further the goals of the Plan or to comply with Colorado law. These covenants run with the land and bind both current and future owners of the property described below.**

We/I understand that all Subdistrict members will be required to contribute financially to the Subdistrict in order generate sufficient revenue to meet the goals of the Subdistrict. It is anticipated that the Subdistrict will be financed primarily through service and user fees, but the Subdistrict may elect to utilize any combination of the financing methods set forth in C.R.S. § 37-48-123(2)(e) (2016). Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. All methods of financing set forth in 37-48-123(2)(e) or in any subsequent amendments thereof are authorized by the signatures on this petition without further election, pending approval of the Subdistrict Board of Managers.

Once land is petitioned into the Subdistrict and the Subdistrict is duly formed by Court order, the land will remain in the Subdistrict for as long as the Subdistrict is in existence. The Subdistrict will exist in perpetuity unless dissolved by appropriate legal action.

The legal description of the property that is the subject of this petition is described below. Wells within the proposed Subdistrict that are located on or having legal authority to apply groundwater to this property are listed in Table A.

Farm Plan # 600230

Petition No 434129200059

By (our/my) signature hereon, (we/I) attest to (our/my) ownership of the wells and described land (or to our/my legal authority to represent an entity that has ownership of the described land), (I/we) indicate our understanding of the foregoing intentions and purposes of the Subdistrict, and request that the same be formed pursuant to applicable statutes by the District Court.

**PETITION  
TO FORM SPECIAL IMPROVEMENT DISTRICT NO. 4  
OF THE RIO GRANDE WATER CONSERVATION DISTRICT**

---

We the undersigned by our signatures affixed to this petition do hereby affirm and attest that:

1. (We/I) own an interest in real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System, or (we/I) represent owners of real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System and (we/I) have the proper legal authority to sign this Petition on the owner's behalf.
  
  2. (We/I) support the formation of Special Improvement District No. 4 and request that the District Court form the Special Improvement District pursuant to the attached Petition and general description of the *conceptual* Plan of Water Management to govern the Special Improvement District.
  
  3. By (my/our) signature hereon (we/I) request that the Rio Grande Water Conservation District petition the District Court to form Special Improvement District No. 4 and include this property within Special Improvement District No. 4.
- 

**Special Improvement District Purpose**

The purpose of this Subdistrict is to provide a community-oriented water management alternative to individual augmentation plans or state-imposed regulations limiting the use of wells in Water Division No. 3. That is, to provide a mechanism through which a group of well users in the San Luis Creek Response Area can work collaboratively to develop and implement a system of self-regulation using economic-based incentives and other management tools that promote responsible groundwater management and that remedies the injury to senior surface water rights that result from groundwater use from Subdistrict wells.

**Participation in the Subdistrict is strictly voluntary. By voluntarily petitioning land into the Subdistrict, (we/I) explicitly authorize, and agree to abide by, any groundwater allocation or limits imposed by the Board of Managers, either by individual Subdistrict well or Farm Unit. (We/I) further understand that the Board of Managers may impose rules, economic disincentives or penalties, up to and including exclusion of wells from the Subdistrict's Annual Replacement Plan, deemed reasonably necessary to further the goals of the Plan or to comply with Colorado law. These covenants run with the land and bind both current and future owners of the property described below.**

We/I understand that all Subdistrict members will be required to contribute financially to the Subdistrict in order generate sufficient revenue to meet the goals of the Subdistrict. It is anticipated that the Subdistrict will be financed primarily through service and user fees, but the Subdistrict may elect to utilize any combination of the financing methods set forth in C.R.S. § 37-48-123(2)(e) (2016). Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. All methods of financing set forth in 37-48-123(2)(e) or in any subsequent amendments thereof are authorized by the signatures on this petition without further election, pending approval of the Subdistrict Board of Managers.

Once land is petitioned into the Subdistrict and the Subdistrict is duly formed by Court order, the land will remain in the Subdistrict for as long as the Subdistrict is in existence. The Subdistrict will exist in perpetuity unless dissolved by appropriate legal action.

The legal description of the property that is the subject of this petition is described below. Wells within the proposed Subdistrict that are located on or having legal authority to apply groundwater to this property are listed in Table A.

3. By (my/our) signature hereon (we/I) request that the Rio Grande Water Conservation District petition the District Court to form Special Improvement District No. 4 and include this property within Special Improvement District No. 4.

---

**Special Improvement District Purpose**

The purpose of this Subdistrict is to provide a community-oriented water management alternative to individual augmentation plans or state-imposed regulations limiting the use of wells in Water Division No. 3. That is, to provide a mechanism through which a group of well users in the San Luis Creek Response Area can work collaboratively to develop and implement a system of self-regulation using economic-based incentives and other management tools that promote responsible groundwater management and that remedies the injury to senior surface water rights that result from groundwater use from Subdistrict wells.

**Participation in the Subdistrict is strictly voluntary. By voluntarily petitioning land into the Subdistrict, (we/I) explicitly authorize, and agree to abide by, any groundwater allocation or limits imposed by the Board of Managers, either by individual Subdistrict well or Farm Unit. (We/I) further understand that the Board of Managers may impose rules, economic disincentives or penalties, up to and including exclusion of wells from the Subdistrict's Annual Replacement Plan, deemed reasonably necessary to further the goals of the Plan or to comply with Colorado law. These covenants run with the land and bind both current and future owners of the property described below.**

We/I understand that all Subdistrict members will be required to contribute financially to the Subdistrict in order generate sufficient revenue to meet the goals of the Subdistrict. It is anticipated that the Subdistrict will be financed primarily through service and user fees, but the Subdistrict may elect to utilize any combination of the financing methods set forth in C.R.S. § 37-48-123(2)(e) (2016). Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. All methods of financing set forth in 37-48-123(2)(e) or in any subsequent amendments thereof are authorized by the signatures on this petition without further election, pending approval of the Subdistrict Board of Managers.

Once land is petitioned into the Subdistrict and the Subdistrict is duly formed by Court order, the land will remain in the Subdistrict for as long as the Subdistrict is in existence. The Subdistrict will exist in perpetuity unless dissolved by appropriate legal action.

The legal description of the property that is the subject of this petition is described below. Wells within the proposed Subdistrict that are located on or having legal authority to apply groundwater to this property are listed in Table A.

By voluntarily petitioning land into the Subdistrict, (we/I) explicitly authorize, and agree to abide by, any groundwater allocation or limits imposed by the Board of Managers, either by individual Subdistrict well or Farm Unit. (We/I) further understand that the Board of Managers may impose rules, economic disincentives or penalties, up to and including exclusion of wells from the Subdistrict's Annual Replacement Plan, deemed reasonably necessary to further the goals of the Plan or to comply with Colorado law. These covenants run with the land and bind both current and future owners of the property described below.**

We/I understand that all Subdistrict members will be required to contribute financially to the Subdistrict in order generate sufficient revenue to meet the goals of the Subdistrict. It is anticipated that the Subdistrict will be financed primarily through service and user fees, but the Subdistrict may elect to utilize any combination of the financing methods set forth in C.R.S. § 37-48-123(2)(e) (2016). Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. All methods of financing set forth in 37-48-123(2)(e) or in any subsequent amendments thereof are authorized by the signatures on this petition without further election, pending approval of the Subdistrict Board of Managers.

Once land is petitioned into the Subdistrict and the Subdistrict is duly formed by Court order, the land will remain in the Subdistrict for as long as the Subdistrict is in existence. The Subdistrict will exist in perpetuity unless dissolved by appropriate legal action.

The legal description of the property that is the subject of this petition is described below. Wells within the proposed Subdistrict that are located on or having legal authority to apply groundwater to this property are listed in Table A.

Farm Plan # 600450

Petition No 448305300019

By (our/my) signature hereon, (we/I) attest to (our/my) ownership of the wells and described land (or to our/my legal authority to represent an entity that has ownership of the described land), (I/we) indicate our understanding of the foregoing intentions and purposes of the Subdistrict, and request that the same be formed pursuant to applicable statutes by the District Court.

**PETITION  
TO FORM SPECIAL IMPROVEMENT DISTRICT NO. 4  
OF THE RIO GRANDE WATER CONSERVATION DISTRICT**

We the undersigned by our signatures affixed to this petition do hereby affirm and attest that:

1. (We/I) own an interest in real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System, or (we/I) represent owners of real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System and (we/I) have the proper legal authority to sign this Petition on the owner's behalf.
2. (We/I) support the formation of Special Improvement District No. 4 and request that the District Court form the Special Improvement District pursuant to the attached Petition and general description of the *conceptual* Plan of Water Management to govern the Special Improvement District.
3. By (my/our) signature hereon (we/I) request that the Rio Grande Water Conservation District petition the District Court to form Special Improvement District No. 4 and include this property within Special Improvement District No. 4.

**Special Improvement District Purpose**

The purpose of this Subdistrict is to provide a community-oriented water management alternative to individual augmentation plans or state-imposed regulations limiting the use of wells in Water Division No. 3. That is, to provide a mechanism through which a group of well users in the San Luis Creek Response Area can work collaboratively to develop and implement a system of self-regulation using economic-based incentives and other management tools that promote responsible groundwater management and that remedies the injury to senior surface water rights that result from groundwater use from Subdistrict wells.

Participation in the Subdistrict is strictly voluntary. By voluntarily petitioning land into the Subdistrict, (we/I) explicitly authorize, and agree to abide by, any groundwater allocation or limits imposed by the Board of Managers, either by individual Subdistrict well or Farm Unit. (We/I) further understand that the Board of Managers may impose rules, economic disincentives or penalties, up to and including exclusion of wells from the Subdistrict's Annual Replacement Plan, deemed reasonably necessary to further the goals of the Plan or to comply with Colorado law. These covenants run with the land and bind both current and future owners of the property described below.

We/I understand that all Subdistrict members will be required to contribute financially to the Subdistrict in order generate sufficient revenue to meet the goals of the Subdistrict. It is anticipated that the Subdistrict will be financed primarily through service and user fees, but the Subdistrict may elect to utilize any combination of the financing methods set forth in C.R.S. § 37-48-123(2)(e) (2016). Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. All methods of financing set forth in 37-48-123(2)(e) or in any subsequent amendments thereof are authorized by the signatures on this petition without further election, pending approval of the Subdistrict Board of Managers.

Once land is petitioned into the Subdistrict and the Subdistrict is duly formed by Court order, the land will remain in the Subdistrict for as long as the Subdistrict is in existence. The Subdistrict will exist in perpetuity unless dissolved by appropriate legal action.

The legal description of the property that is the subject of this petition is described below. Wells within the proposed Subdistrict that are located on or having legal authority to apply groundwater to this property are listed in Table A.

By (our/my) signature hereon, (we/I) attest to (our/my) ownership of the wells and described land (or to our/my legal authority to represent an entity that has ownership of the described land), (I/we) indicate our understanding of the foregoing intentions and purposes of the Subdistrict, and request that the same be formed pursuant to applicable statutes by the District Court.

**PETITION  
TO FORM SPECIAL IMPROVEMENT DISTRICT NO. 4  
OF THE RIO GRANDE WATER CONSERVATION DISTRICT**

---

We the undersigned by our signatures affixed to this petition do hereby affirm and attest that:

1. (We/I) own an interest in real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System, or (we/I) represent owners of real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System and (we/I) have the proper legal authority to sign this Petition on the owner's behalf.
  2. (We/I) support the formation of Special Improvement District No. 4 and request that the District Court form the Special Improvement District pursuant to the attached Petition and general description of the *conceptual* Plan of Water Management to govern the Special Improvement District.
  3. By (my/our) signature hereon (we/I) request that the Rio Grande Water Conservation District petition the District Court to form Special Improvement District No. 4 and include this property within Special Improvement District No. 4.
- 

**Special Improvement District Purpose**

The purpose of this Subdistrict is to provide a community-oriented water management alternative to individual augmentation plans or state-imposed regulations limiting the use of wells in Water Division No. 3. That is, to provide a mechanism through which a group of well users in the San Luis Creek Response Area can work collaboratively to develop and implement a system of self-regulation using economic-based incentives and other management tools that promote responsible groundwater management and that remedies the injury to senior surface water rights that result from groundwater use from Subdistrict wells.

**Participation in the Subdistrict is strictly voluntary. By voluntarily petitioning land into the Subdistrict, (we/I) explicitly authorize, and agree to abide by, any groundwater allocation or limits imposed by the Board of Managers, either by individual Subdistrict well or Farm Unit. (We/I) further understand that the Board of Managers may impose rules, economic disincentives or penalties, up to and including exclusion of wells from the Subdistrict's Annual Replacement Plan, deemed reasonably necessary to further the goals of the Plan or to comply with Colorado law. These covenants run with the land and bind both current and future owners of the property described below.**

We/I understand that all Subdistrict members will be required to contribute financially to the Subdistrict in order generate sufficient revenue to meet the goals of the Subdistrict. It is anticipated that the Subdistrict will be financed primarily through service and user fees, but the Subdistrict may elect to utilize any combination of the financing methods set forth in C.R.S. § 37-48-123(2)(e) (2016). Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. All methods of financing set forth in 37-48-123(2)(e) or in any subsequent amendments thereof are authorized by the signatures on this petition without further election, pending approval of the Subdistrict Board of Managers.

Once land is petitioned into the Subdistrict and the Subdistrict is duly formed by Court order, the land will remain in the Subdistrict for as long as the Subdistrict is in existence. The Subdistrict will exist in perpetuity unless dissolved by appropriate legal action.

The legal description of the property that is the subject of this petition is described below. Wells within the proposed Subdistrict that are located on or having legal authority to apply groundwater to this property are listed in Table A.

Farm Plan # 600170

Petition No 448330100041

By (our/my) signature hereon, (we/I) attest to (our/my) ownership of the wells and described land (or to our/my legal authority to represent an entity that has ownership of the described land), (I/we) indicate our understanding of the foregoing intentions and purposes of the Subdistrict, and request that the same be formed pursuant to applicable statutes by the District Court.

**PETITION  
TO FORM SPECIAL IMPROVEMENT DISTRICT NO. 4  
OF THE RIO GRANDE WATER CONSERVATION DISTRICT**

---

We the undersigned by our signatures affixed to this petition do hereby affirm and attest that:

1. (We/I) own an interest in real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System, or (we/I) represent owners of real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System and (we/I) have the proper legal authority to sign this Petition on the owner's behalf.
  
2. (We/I) support the formation of Special Improvement District No. 4 and request that the District Court form the Special Improvement District pursuant to the attached Petition and general description of the *conceptual* Plan of Water Management to govern the Special Improvement District.
  
3. By (my/our) signature hereon (we/I) request that the Rio Grande Water Conservation District petition the District Court to form Special Improvement District No. 4 and include this property within Special Improvement District No. 4.

---

**Special Improvement District Purpose**

The purpose of this Subdistrict is to provide a community-oriented water management alternative to individual augmentation plans or state-imposed regulations limiting the use of wells in Water Division No. 3. That is, to provide a mechanism through which a group of well users in the San Luis Creek Response Area can work collaboratively to develop and implement a system of self-regulation using economic-based incentives and other management tools that promote responsible groundwater management and that remedies the injury to senior surface water rights that result from groundwater use from Subdistrict wells.

**Participation in the Subdistrict is strictly voluntary. By voluntarily petitioning land into the Subdistrict, (we/I) explicitly authorize, and agree to abide by, any groundwater allocation or limits imposed by the Board of Managers, either by individual Subdistrict well or Farm Unit. (We/I) further understand that the Board of Managers may impose rules, economic disincentives or penalties, up to and including exclusion of wells from the Subdistrict's Annual Replacement Plan, deemed reasonably necessary to further the goals of the Plan or to comply with Colorado law. These covenants run with the land and bind both current and future owners of the property described below.**

We/I understand that all Subdistrict members will be required to contribute financially to the Subdistrict in order generate sufficient revenue to meet the goals of the Subdistrict. It is anticipated that the Subdistrict will be financed primarily through service and user fees, but the Subdistrict may elect to utilize any combination of the financing methods set forth in C.R.S. § 37-48-123(2)(e) (2016). Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. All methods of financing set forth in 37-48-123(2)(e) or in any subsequent amendments thereof are authorized by the signatures on this petition without further election, pending approval of the Subdistrict Board of Managers.

Once land is petitioned into the Subdistrict and the Subdistrict is duly formed by Court order, the land will remain in the Subdistrict for as long as the Subdistrict is in existence. The Subdistrict will exist in perpetuity unless dissolved by appropriate legal action.

The legal description of the property that is the subject of this petition is described below. Wells within the proposed Subdistrict that are located on or having legal authority to apply groundwater to this property are listed in Table A.

**PETITION  
TO FORM SPECIAL IMPROVEMENT DISTRICT NO. 4  
OF THE RIO GRANDE WATER CONSERVATION DISTRICT**

---

We the undersigned by our signatures affixed to this petition do hereby affirm and attest that:

1. (We/I) own an interest in real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System, or (we/I) represent owners of real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System and (we/I) have the proper legal authority to sign this Petition on the owner's behalf.
  2. (We/I) support the formation of Special Improvement District No. 4 and request that the District Court form the Special Improvement District pursuant to the attached Petition and general description of the *conceptual* Plan of Water Management to govern the Special Improvement District.
  3. By (my/our) signature hereon (we/I) request that the Rio Grande Water Conservation District petition the District Court to form Special Improvement District No. 4 and include this property within Special Improvement District No. 4.
- 

**Special Improvement District Purpose**

The purpose of this Subdistrict is to provide a community-oriented water management alternative to individual augmentation plans or state-imposed regulations limiting the use of wells in Water Division No. 3. That is, to provide a mechanism through which a group of well users in the San Luis Creek Response Area can work collaboratively to develop and implement a system of self-regulation using economic-based incentives and other management tools that promote responsible groundwater management and that remedies the injury to senior surface water rights that result from groundwater use from Subdistrict wells.

**Participation in the Subdistrict is strictly voluntary. By voluntarily petitioning land into the Subdistrict, (we/I) explicitly authorize, and agree to abide by, any groundwater allocation or limits imposed by the Board of Managers, either by individual Subdistrict well or Farm Unit. (We/I) further understand that the Board of Managers may impose rules, economic disincentives or penalties, up to and including exclusion of wells from the Subdistrict's Annual Replacement Plan, deemed reasonably necessary to further the goals of the Plan or to comply with Colorado law. These covenants run with the land and bind both current and future owners of the property described below.**

We/I understand that all Subdistrict members will be required to contribute financially to the Subdistrict in order generate sufficient revenue to meet the goals of the Subdistrict. It is anticipated that the Subdistrict will be financed primarily through service and user fees, but the Subdistrict may elect to utilize any combination of the financing methods set forth in C.R.S. § 37-48-123(2)(e) (2016). Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. All methods of financing set forth in 37-48-123(2)(e) or in any subsequent amendments thereof are authorized by the signatures on this petition without further election, pending approval of the Subdistrict Board of Managers.

Once land is petitioned into the Subdistrict and the Subdistrict is duly formed by Court order, the land will remain in the Subdistrict for as long as the Subdistrict is in existence. The Subdistrict will exist in perpetuity unless dissolved by appropriate legal action.

The legal description of the property that is the subject of this petition is described below. Wells within the proposed Subdistrict that are located on or having legal authority to apply groundwater to this property are listed in Table A.

Farm Plan # 600440

We the undersigned by our signatures affixed to this petition do hereby affirm and attest that:

1. (We/I) own an interest in real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System, or (we/I) represent owners of real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System and (we/I) have the proper legal authority to sign this Petition on the owner's behalf.
  2. (We/I) support the formation of Special Improvement District No. 4 and request that the District Court form the Special Improvement District pursuant to the attached Petition and general description of the *conceptual* Plan of Water Management to govern the Special Improvement District.
  3. By (my/our) signature hereon (we/I) request that the Rio Grande Water Conservation District petition the District Court to form Special Improvement District No. 4 and include this property within Special Improvement District No. 4.
- 

**Special Improvement District Purpose**

The purpose of this Subdistrict is to provide a community-oriented water management alternative to individual augmentation plans or state-imposed regulations limiting the use of wells in Water Division No. 3. That is, to provide a mechanism through which a group of well users in the San Luis Creek Response Area can work collaboratively to develop and implement a system of self-regulation using economic-based incentives and other management tools that promote responsible groundwater management and that remedies the injury to senior surface water rights that result from groundwater use from Subdistrict wells.

**Participation in the Subdistrict is strictly voluntary. By voluntarily petitioning land into the Subdistrict, (we/I) explicitly authorize, and agree to abide by, any groundwater allocation or limits imposed by the Board of Managers, either by individual Subdistrict well or Farm Unit. (We/I) further understand that the Board of Managers may impose rules, economic disincentives or penalties, up to and including exclusion of wells from the Subdistrict's Annual Replacement Plan, deemed reasonably necessary to further the goals of the Plan or to comply with Colorado law. These covenants run with the land and bind both current and future owners of the property described below.**

We/I understand that all Subdistrict members will be required to contribute financially to the Subdistrict in order generate sufficient revenue to meet the goals of the Subdistrict. It is anticipated that the Subdistrict will be financed primarily through service and user fees, but the Subdistrict may elect to utilize any combination of the financing methods set forth in C.R.S. § 37-48-123(2)(e) (2016). Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. All methods of financing set forth in 37-48-123(2)(e) or in any subsequent amendments thereof are authorized by the signatures on this petition without further election, pending approval of the Subdistrict Board of Managers.

Once land is petitioned into the Subdistrict and the Subdistrict is duly formed by Court order, the land will remain in the Subdistrict for as long as the Subdistrict is in existence. The Subdistrict will exist in perpetuity unless dissolved by appropriate legal action.

The legal description of the property that is the subject of this petition is described below. Wells within the proposed Subdistrict that are located on or having legal authority to apply groundwater to this property are listed in Table A.

By voluntarily petitioning land into the Subdistrict, (we/I) explicitly authorize, and agree to abide by, any groundwater allocation or limits imposed by the Board of Managers, either by individual Subdistrict well or Farm Unit. (We/I) further understand that the Board of Managers may impose rules, economic disincentives or penalties, up to and including exclusion of wells from the Subdistrict's Annual Replacement Plan, deemed reasonably necessary to further the goals of the Plan or to comply with Colorado law. These covenants run with the land and bind both current and future owners of the property described below.**

We/I understand that all Subdistrict members will be required to contribute financially to the Subdistrict in order generate sufficient revenue to meet the goals of the Subdistrict. It is anticipated that the Subdistrict will be financed primarily through service and user fees, but the Subdistrict may elect to utilize any combination of the financing methods set forth in C.R.S. § 37-48-123(2)(e) (2016). Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. All methods of financing set forth in 37-48-123(2)(e) or in any subsequent amendments thereof are authorized by the signatures on this petition without further election, pending approval of the Subdistrict Board of Managers.

Once land is petitioned into the Subdistrict and the Subdistrict is duly formed by Court order, the land will remain in the Subdistrict for as long as the Subdistrict is in existence. The Subdistrict will exist in perpetuity unless dissolved by appropriate legal action.

The legal description of the property that is the subject of this petition is described below. Wells within the proposed Subdistrict that are located on or having legal authority to apply groundwater to this property are listed in Table A.

Farm Plan # 600690

Petition No 459901200106

By (our/my) signature hereon, (we/I) attest to (our/my) ownership of the wells and described land (or to our/my legal authority to represent an entity that has ownership of the described land), (I/we) indicate our understanding of the foregoing intentions and purposes of the Subdistrict, and request that the same be formed pursuant to applicable statutes by the District Court.

**PETITION  
TO FORM SPECIAL IMPROVEMENT DISTRICT NO. 4  
OF THE RIO GRANDE WATER CONSERVATION DISTRICT**

---

We the undersigned by our signatures affixed to this petition do hereby affirm and attest that:

1. (We/I) own an interest in real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System, or (we/I) represent owners of real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System and (we/I) have the proper legal authority to sign this Petition on the owner's behalf.
  2. (We/I) support the formation of Special Improvement District No. 4 and request that the District Court form the Special Improvement District pursuant to the attached Petition and general description of the *conceptual* Plan of Water Management to govern the Special Improvement District.
  3. By (my/our) signature hereon (we/I) request that the Rio Grande Water Conservation District petition the District Court to form Special Improvement District No. 4 and include this property within Special Improvement District No. 4.
- 

**Special Improvement District Purpose**

The purpose of this Subdistrict is to provide a community-oriented water management alternative to individual augmentation plans or state-imposed regulations limiting the use of wells in Water Division No. 3. That is, to provide a mechanism through which a group of well users in the San Luis Creek Response Area can work collaboratively to develop and implement a system of self-regulation using economic-based incentives and other management tools that promote responsible groundwater management and that remedies the injury to senior surface water rights that result from groundwater use from Subdistrict wells.

**Participation in the Subdistrict is strictly voluntary. By voluntarily petitioning land into the Subdistrict, (we/I) explicitly authorize, and agree to abide by, any groundwater allocation or limits imposed by the Board of Managers, either by individual Subdistrict well or Farm Unit. (We/I) further understand that the Board of Managers may impose rules, economic disincentives or penalties, up to and including exclusion of wells from the Subdistrict's Annual Replacement Plan, deemed reasonably necessary to further the goals of the Plan or to comply with Colorado law. These covenants run with the land and bind both current and future owners of the property described below.**

We/I understand that all Subdistrict members will be required to contribute financially to the Subdistrict in order generate sufficient revenue to meet the goals of the Subdistrict. It is anticipated that the Subdistrict will be financed primarily through service and user fees, but the Subdistrict may elect to utilize any combination of the financing methods set forth in C.R.S. § 37-48-123(2)(e) (2016). Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. All methods of financing set forth in 37-48-123(2)(e) or in any subsequent amendments thereof are authorized by the signatures on this petition without further election, pending approval of the Subdistrict Board of Managers.

Once land is petitioned into the Subdistrict and the Subdistrict is duly formed by Court order, the land will remain in the Subdistrict for as long as the Subdistrict is in existence. The Subdistrict will exist in perpetuity unless dissolved by appropriate legal action.

The legal description of the property that is the subject of this petition is described below. Wells within the proposed Subdistrict that are located on or having legal authority to apply groundwater to this property are listed in Table A.

Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. All methods of financing set forth in 37-48-123(2)(e) or in any subsequent amendments thereof are authorized by the signatures on this petition without further election, pending approval of the Subdistrict Board of Managers.

Once land is petitioned into the Subdistrict and the Subdistrict is duly formed by Court order, the land will remain in the Subdistrict for as long as the Subdistrict is in existence. The Subdistrict will exist in perpetuity unless dissolved by appropriate legal action.

The legal description of the property that is the subject of this petition is described below. Wells within the proposed Subdistrict that are located on or having legal authority to apply groundwater to this property are listed in Table A.

Farm Plan # 600750

Petition No 460108200003

By (our/my) signature hereon, (we/I) attest to (our/my) ownership of the wells and described land (or to our/my legal authority to represent an entity that has ownership of the described land), (I/we) indicate our understanding of the foregoing intentions and purposes of the Subdistrict, and request that the same be formed pursuant to applicable statutes by the District Court.

**PETITION**  
**TO FORM SPECIAL IMPROVEMENT DISTRICT NO. 4**  
**OF THE RIO GRANDE WATER CONSERVATION DISTRICT**

We the undersigned by our signatures affixed to this petition do hereby affirm and attest that:

1. (We/I) own an interest in real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System, or (we/I) represent owners of real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System and (we/I) have the proper legal authority to sign this Petition on the owner's behalf.
2. (We/I) support the formation of Special Improvement District No. 4 and request that the District Court form the Special Improvement District pursuant to the attached Petition and general description of the *conceptual* Plan of Water Management to govern the Special Improvement District.
3. By (my/our) signature hereon (we/I) request that the Rio Grande Water Conservation District petition the District Court to form Special Improvement District No. 4 and include this property within Special Improvement District No. 4.

---

**Special Improvement District Purpose**

The purpose of this Subdistrict is to provide a community-oriented water management alternative to individual augmentation plans or state-imposed regulations limiting the use of wells in Water Division No. 3. That is, to provide a mechanism through which a group of well users in the San Luis Creek Response Area can work collaboratively to develop and implement a system of self-regulation using economic-based incentives and other management tools that promote responsible groundwater management and that remedies the injury to senior surface water rights that result from groundwater use from Subdistrict wells.

**Participation in the Subdistrict is strictly voluntary. By voluntarily petitioning land into the Subdistrict, (we/I) explicitly authorize, and agree to abide by, any groundwater allocation or limits imposed by the Board of Managers, either by individual Subdistrict well or Farm Unit. (We/I) further understand that the Board of Managers may impose rules, economic disincentives or penalties, up to and including exclusion of wells from the Subdistrict's Annual Replacement Plan, deemed reasonably necessary to further the goals of the Plan or to comply with Colorado law. These covenants run with the land and bind both current and future owners of the property described below.**

We/I understand that all Subdistrict members will be required to contribute financially to the Subdistrict in order generate sufficient revenue to meet the goals of the Subdistrict. It is anticipated that the Subdistrict will be financed primarily through service and user fees, but the Subdistrict may elect to utilize any combination of the financing methods set forth in C.R.S. § 37-48-123(2)(e) (2016). Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. All methods of financing set forth in 37-48-123(2)(e) or in any subsequent amendments thereof are authorized by the signatures on this petition without further election, pending approval of the Subdistrict Board of Managers.

Once land is petitioned into the Subdistrict and the Subdistrict is duly formed by Court order, the land will remain in the Subdistrict for as long as the Subdistrict is in existence. The Subdistrict will exist in perpetuity unless dissolved by appropriate legal action.

The legal description of the property that is the subject of this petition is described below. Wells within the proposed Subdistrict that are located on or having legal authority to apply groundwater to this property are listed in Table A.

**PETITION  
TO FORM SPECIAL IMPROVEMENT DISTRICT NO. 4  
OF THE RIO GRANDE WATER CONSERVATION DISTRICT**

---

We the undersigned by our signatures affixed to this petition do hereby affirm and attest that:

1. (We/I) own an interest in real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System, or (we/I) represent owners of real property that includes a well(s) decreed or permitted in whole or in part for irrigation purposes within the San Luis Creek Response Area of the Rio Grande Decision Support System and (we/I) have the proper legal authority to sign this Petition on the owner's behalf.
2. (We/I) support the formation of Special Improvement District No. 4 and request that the District Court form the Special Improvement District pursuant to the attached Petition and general description of the *conceptual* Plan of Water Management to govern the Special Improvement District.
3. By (my/our) signature hereon (we/I) request that the Rio Grande Water Conservation District petition the District Court to form Special Improvement District No. 4 and include this property within Special Improvement District No. 4.

---

**Special Improvement District Purpose**

The purpose of this Subdistrict is to provide a community-oriented water management alternative to individual augmentation plans or state-imposed regulations limiting the use of wells in Water Division No. 3. That is, to provide a mechanism through which a group of well users in the San Luis Creek Response Area can work collaboratively to develop and implement a system of self-regulation using economic-based incentives and other management tools that promote responsible groundwater management and that remedies the injury to senior surface water rights that result from groundwater use from Subdistrict wells.

**Participation in the Subdistrict is strictly voluntary. By voluntarily petitioning land into the Subdistrict, (we/I) explicitly authorize, and agree to abide by, any groundwater allocation or limits imposed by the Board of Managers, either by individual Subdistrict well or Farm Unit. (We/I) further understand that the Board of Managers may impose rules, economic disincentives or penalties, up to and including exclusion of wells from the Subdistrict's Annual Replacement Plan, deemed reasonably necessary to further the goals of the Plan or to comply with Colorado law. These covenants run with the land and bind both current and future owners of the property described below.**

We/I understand that all Subdistrict members will be required to contribute financially to the Subdistrict in order generate sufficient revenue to meet the goals of the Subdistrict. It is anticipated that the Subdistrict will be financed primarily through service and user fees, but the Subdistrict may elect to utilize any combination of the financing methods set forth in C.R.S. § 37-48-123(2)(e) (2016). Subdistrict assessments will be submitted annually to the Rio Grande Water Conservation District Board of Directors for approval and then certified to the County where the taxable real property described below is situated for addition to the tax rolls. All methods of financing set forth in 37-48-123(2)(e) or in any subsequent amendments thereof are authorized by the signatures on this petition without further election, pending approval of the Subdistrict Board of Managers.

Once land is petitioned into the Subdistrict and the Subdistrict is duly formed by Court order, the land will remain in the Subdistrict for as long as the Subdistrict is in existence. The Subdistrict will exist in perpetuity unless dissolved by appropriate legal action.

The legal description of the property that is the subject of this petition is described below. Wells within the proposed Subdistrict that are located on or having legal authority to apply groundwater to this property are listed in Table A.
